Rev. Smotherman Is Highly Complimented.

Dear Editor:

Rev. J. L. Smotherman of Cartage, who is pastor the Liberty circuit, is a man far above the ordinary and deserves to labor in broader fields than any in which he has ever sown.

He is an orator, a linguist and profound thinker. His language is to the mind what the beautiful flowers are to the eye. In the pulpit and on the stage he makes a ladder of Rhetoric and climbs upwards.

He delivered the address to the graduating class of Temperance Hall High School and with his eloquence and humor he held the audience spellbound for an hour and fifteen minutes.

When Socrates gave his life for that great truth "The soul lives beyond the silent river," he died for a truth that will reach across the ages. When Homer wrote the Iliad and the Odyssey, he spun a rainbow around the dizzy peaks of literature.

When Smotherman delivered his great address to the graduating class of Temperance Hall High School, he rose on the wings

of eloquence and soared back across the fields of literature where our great men of the past have labored and enabled us to see the monuments erected to their memory that the rolling centuries can not crumble to dust—and then he turned and rolled the curtain and let us look down the dim vista of coming years and view the possibilities that lie out before us.

J. F. Caplinger,
Principal Temperance Hall School.

Back from the City

Will the farm help that has been jazzing away the last few years under the white lights of the city come back to be fed on the farm? Will farm labor be plentiful this year? Will it be competent? Will wages be unreasonably high? To know, you should read

The COUNTRY GENTLEMAN

Its continuous national survey of farm conditions enables it to forecast the labor market. There are two particularly timely stories coming in next week's issue.

One deals with the puzzling immigration problem. Will the loosening up of immigration requirements give the farmer more competent labor at a usable price? Or will it merely result in the further crowding of city slums for the farmer to feed? This answer is based on an actual study of incoming shiploads at Ellis Island. The other tells how the grain farmers of the Middle West keep their help after they get it—it offers some mighty keen suggestions. With other farm problems THE COUNTRY GENTLEMAN is just as helpful. Yet 52 big weekly issues cost but \$1.00. Sure I'll take your check!
